EXECUTIVE SUMMARY

Partner marketing and **ecosystem GTM** leader across **enterprise AI**, merchant platforms and regulated-market launches. Builds partner-ready value propositions, **localization** and enablement patterns, **distribution** motions and cross-functional launch plans that translate complex technology into scalable **enterprise adoption**. Brings ecosystem strategy, **partner activation**, enterprise enablement, **joint launch** planning, **localization** and regulated-market deployment across complex platform partnerships.

EDUCATION

University of Michigan, Stephen M. Ross School of Business - Master of Business Administration | 2022 - 2024

London School of Economics and Political Science - Executive Coursework, Economics, Markets & Public Policy | 2024

Indian Institute of Technology - B.Tech, Computer Science | 2010 - 2014

PROFESSIONAL EXPERIENCE

Amazon Web Services (AWS) - Generative AI

Jul 2024 - Present | San Francisco, CA

Principal, Partner Marketing & Ecosystem GTM

- Defined **ecosystem GTM** for a managed agent platform connecting foundation models to private **enterprise** data and business systems, translating access controls, auditable actions, retention limits and human approvals into **partner-ready deployment** patterns.
- Launched Japanese-language support and reusable internationalization / **localization** patterns across language, tone, tokenization and culturally appropriate interaction design, creating a repeatable multi-market expansion playbook.
- Improved launch readiness through prompt, retrieval and product-surface experiments with **partner**-facing guardrails and escalation controls; reached **25%** adoption, lifted brand favorability **55% to 70%**, reduced hallucinations to **2.8%** and increased session depth **15%**.
- Led a policy-aware generation layer for AI-created advertising, aligning legal, brand and safety requirements with measurable launch criteria for commercial and advertising use cases.
- Authored the Working Backwards PR-FAQ and **\$100M+** GMV sensitivity model that secured **\$5M** incremental funding, giving executives and **ecosystem** stakeholders a shared business case, launch narrative and **commercialization** roadmap for the agentic platform.
- Turned Japan **localization** into a reusable **partner** launch and internationalization playbook, aligning language, tone, tokenization, **enablement** materials, launch-readiness criteria and stakeholder handoffs to accelerate multi-market **ecosystem** activation.

Rakuten Group, Inc. - Merchant Ecosystem

Jun 2023 - Dec 2023 | Tokyo, Japan

Partner GTM - MBA Intern

- Built a horizontal AI-platform strategy across **70+** business units and **50,000+** merchants using a buy-intelligence, build-context model that combined external foundation models with proprietary workflows and business data.
- Embedded AI into merchant listing, image and operational workflows; reached **40%** adoption in six months, increased conversion **15%** and reduced listing time **45** to **12** minutes.
- Identified a cross-device attribution gap and coordinated engineering, analytics, finance and merchant **partners** to restore transaction continuity and revenue attribution across the **ecosystem**.
- Stress-tested consumer-launch economics and redirected **GTM** toward **enterprise** partnerships and higher-value segments, improving CAC, retention and payback economics.
- Defined reusable **partner integration** and **solution**-architecture patterns for PII protection, hybrid vector + keyword retrieval and a unified knowledge graph, giving **ecosystem** teams a scalable technical foundation for **partner onboarding**, **solution enablement** and multi-business-unit **deployment**.

Microsoft Corporation – Azure, Regulated Industries

Jan 2020 - Aug 2022 | Redmond, WA

Senior Manager, Enterprise Partner GTM

- Developed reusable **partner GTM** and **deployment** patterns for government and regulated-**enterprise** buyers requiring local data control, security validation and jurisdiction-specific architecture; reduced implementation time from months to hours.
- Productized verified identity, automated execution logic, approvals and event-triggered payments, reducing contract-to-cash **14** days to **<48** hours and supporting **~10x** partner volume.
- Aligned product, engineering, legal and field teams around compliance-as-a-feature messaging, **partner onboarding** requirements and repeatable **solution** patterns across regulated customer engagements.
- Recovered a **\$5M** at-risk regulated-**enterprise** relationship and won a **\$2M** upsell by coordinating product, engineering and legal on data-residency requirements across **10** markets, turning compliance blockers into a reusable **partner deployment** playbook.

The D. E. Shaw Group - Institutional Partnerships

Jul 2016 - Dec 2019 | New York, NY & Hyderabad, India

Vice President, Commercial Activation

- Built proprietary engagement and client-data infrastructure for institutional investors in regulated Asian markets, connecting behavioral signals to commercial outreach and relationship development.
- Created a unified deal-data repository that reduced consolidation **48** to **6** hours and contributed to a **\$25M** Series B close one week ahead of competitors.
- Managed internal service levels, adoption measures and a backlog for quantitative, trading, legal and investment users, tying platform improvements to deal velocity and stakeholder experience.
- Originated and expanded a strategic institutional relationship that culminated in a **\$500M** mandate, leading **solution** positioning, technical diligence, stakeholder education and final negotiation through a complex multi-party buying process.

McKinsey & Company - Distribution Partnerships

Jul 2014 - Jun 2016 | London, UK

Associate, Market Entry

- Led the **0-to-1** launch of a Southeast Asian digital bank through a regulatory sandbox, coordinating product, risk, compliance and **distribution partners** around alternative-data credit scoring, eKYC and liveness verification.
- Scaled the launch to **100,000** active users in **90** days, increasing approval **10% to 40%** while holding **2.4%** NPL and CAC below **\$10**.
- Owned market sizing, customer discovery, MVP scope, **partner** requirements, regulatory alignment and **GTM** sequencing across **400+** model features and multiple stakeholder groups.
- Aligned product, data science, risk, compliance and **distribution partners** around a **400+** feature ML credit-scoring proposition, translating model capabilities into channel requirements, launch governance and **partner-ready** operating processes.
